Dear Sirs,

We sincerely congratulate You with the high award of Swedish Royal Academy of science!

Owing to your research-and-development activities the govts of industrially developed states today better understand the aftermaths of the alternation of climate and the realizations of technological innovations in international economics.

We think capital that fact which you in its works bear on the originators of classic economic school. ND Royal Swedish Academy of science bolsters the scientists of economists who actually develop economic idea, rather than aim be distinguished its by "disclosures of originators".

We we wish that your follow-up works will expedite the achievement of agreement by the states of World concerning not only conservations of habitat but also the pace of technological development.
